## Letting Soffio & Nuvola Experience

**Soffio** is an evolved and technological lounge for any kind of body treatment that will make you feel like you're on a warm tropical beach. The warmth of the water-filled mattress with adjustable temperature. The soft and cozy surface will be crossed by a gentle wave that laps your body from the feet up to the neck and slowly flows back while our experienced operators will regenerate your body.

**Nuvola Experience**, Zero Gravity Mindfulness experience. Floating, heat, hydromassage, chromatic lights and aromas, light waves, alternating hot/cold in an emotional context, bring the body into an ideal condition to counteract stress or fatigue, restoring the body's overall balance thanks to the absence of gravity.
